FYI -

it looks like NTP and ATSDR will be speaking at the first NAS meeting as well.

Subject: Fw: Draft Agenda for Public Session

Ellen Mantus sent me a draft public agenda for the June 7 FA panel meeting (attached). Peter Preuss is listed as the sole presenter from the EPA. He has been allotted 50 minutes to discuss the "Study Expectations from U.S. Environmental Protection Agency." As you can see from Ellen's Email, others from the EPA are welcome to speak as well, and we can request additional time if we wish. If Peter is not able to participate in the June 7 meeting, we need to provide Ellen with an alternate. She would appreciate our input by Thursday so she can post the draft agenda no later than Friday.

John

Subject: Draft Agenda for Public Session

Hi John,

Attached is the draft public agenda for the formaldehyde meeting. I have indicated Peter Preuss as the EPA speaker, but others are welcome to speak. Let me know if you want me to divide EPA's slot into multiple speakers, and also whether you would like additional time. I am getting considerable pressure to get the agenda posted, so I would greatly appreciate it if you could get back to me this week by Thursday. We need to post a draft agenda no later than Friday, and sooner would be better.

Thanks.

Ellen
